PROFESSIONAL EXPERIENCE

UMRF Ventures, Inc.

Web Designer and Developer

Memphis, TN, USA

March 2025 - Present

- Design and develop responsive frontend websites and user interfaces using HTML, CSS, JavaScript, and PHP within a custom CMS, supporting a 34.9% YoY growth in unique visitors.
- Develop and maintain digital content with a detail-oriented approach, ensuring accuracy, WCAG compliance, and brand alignment, contributing to a 40.8% increase in site visits.
- Practice user-centered, end-to-end UX design by creating wireframes, refining information architecture, and building Figma prototypes, driving a 20.3% increase in site engagement.
- Collaborate with cross-functional teams of marketers, developers, and leadership to successfully deliver website development projects.

FedEx DevOps Analyst

November 2024 - June 2025

- Optimized six Splunk dashboards using analytical problem-solving, reducing system resource usage by 93.2% and enhancing data monitoring capabilities.
- Supported CI/CD workflows and deployed applications into Splunk, committing 112+ changes to version control and collaborating with cross-functional teams to align technical solutions.
- Authored comprehensive documentation for complex technical processes, demonstrating meticulous attention to detail.

Sedgwick Care Support Agent

February 2024 - October 2024

- Resolved complex technical issues with clear communication and problem-solving, ensuring accessible and user-friendly outcomes for customers.

University of Memphis

Front-End Developer

Memphis, TN, USA

September 2023 - April 2024

- Developed an accessible web application for children with auditory deficits using Ruby on Rails, HTML, and JavaScript, utilizing user testing and iterative user-centered design.
- Performed QA testing on JavaScript and web forms, ensuring data accuracy, web accessibility, and a seamless user interface.

PROJECTS

UOM Rewards – Task & Reward Mobile App

UX/UI Designer

Memphis, TN, USA

September 2023 - December 2023

- Practiced end-to-end UX design: conducted user research, defined information architecture, created wireframes, and interactive Figma prototypes.
- Tested visual design, typography, and UI components for accessibility, presenting app features and user flows through a video demo.
